

How to Install an APK File onto Oculus Quest 2 Using SideQuest

Prerequisites:

1. Make sure you have the APK file downloaded onto your computer.
2. Install and set up SideQuest on your computer.

Steps:

1. **Connect Oculus Quest 2:**
 - Connect your Oculus Quest 2 to your computer using a USB cable.
2. **Open SideQuest:**
 - Launch the SideQuest application on your computer.
3. **Ensure Connection:**
 - Wait for your Oculus Quest 2 to be detected by SideQuest. When the device icon turns green and displays "Quest 2 connected," proceed to the next step.
4. **Install APK:**
 - In SideQuest, locate and click on the icon that says "Install APK file from folder on computer." This will open a file browser.
5. **Locate APK File:**
 - Navigate to the folder where you downloaded the APK file. Make sure you remember the location of the file.
6. **Select APK File:**
 - Locate the desired APK file in the file browser. For example, if you're installing a VR game called "Open World Pirate," right-click on the corresponding APK file and select "Open."
7. **Installation Process:**
 - Once you've selected the APK file, it will be sent to the task section in SideQuest. Click on the task to start the installation process.
8. **Wait for Installation:**
 - Wait for the installation process to complete. You'll see a notification indicating that the app has been installed successfully.
9. **Check Unknown Sources:**
 - If the installed app is not an official app from the Oculus Store, it will likely appear in the "Unknown Sources" section of your Oculus Quest 2. To access it, navigate to the "Unknown Sources" tab on your headset.
10. **Usage:**
 - Congratulations! The APK file has been successfully installed on your Oculus Quest 2 and is now ready to be used.

And that's it! You've successfully installed an APK file onto your Oculus Quest 2 using SideQuest. Enjoy exploring new apps and experiences on your headset!

If you have any further questions or need assistance, feel free to reach out. Have a great day!
